**PETITION FOR REVIVAL OF AN APPLICATION
FOR PATENT ABANDONED UNINTENTIONALLY
UNDER 37 C.F.R. § 1.137(b)**

Hon. Commissioner of Patents
and Trademarks

RECEIVED

OFFICE OF PETITIONS

Sir:

The above-identified patent application became abandoned for failure to fail a timely reply to the Office Action dated March 21, 2001, according to the Notice of Abandonment dated September 20, 2001. The date of abandonment is the day after the expiration date of the one month period set for reply in the Office Action, for which extensions of time were not available under 37 C.F.R. § 1.136(a). A complete response was filed on May 21, 2001.

The Applicant hereby petitions for revival of the above-captioned patent application under 37 C.F.R. § 1.137(b). The Applicant respectfully submits that the entire delay in failing to respond to the Office Action of March 21, 2001 was unintentional. The fee of \$1,280.00 for this Petition under 37 C.F.R. § 1.17(m) is attached hereto. The Applicant respectfully submits that a Terminal Disclaimer is not required in this instance because a Terminal Disclaimer was submitted together with the response filed on May 21, 2001. However, should the Office determine that a further Terminal Disclaimer is required, the Applicant

respectfully requests to be so notified. In addition, the Applicant respectfully points out that a reply to the Office Action is not now required because a response was filed on May 21, 2001.

The Applicant sets forth the relevant facts as follows:

1. On October 2, 2001, Applicant's attorney received a Notice of Abandonment (dated September 20, 2001) for the above-identified patent application. (**Exhibit 1.**) The Notice of Abandonment indicates that the above-captioned patent application became abandoned for failure to respond to the Office Action dated March 21, 2001, the unextendable date for response to which was April 21, 2001.
2. The Office Action was received on March 28, 2001 by the Applicant's attorney's law firm but was not docketed by the firm's docketing department, which is the usual practice.
3. The undersigned docketed the response date in a personal docket book. However, it was not until the eve of filing a response to the Office Action that the Applicant's attorney appreciated the unextendable due date.
4. Nevertheless, the Applicant's attorney believed that the response was timely filed because the litigation, which caused the Examiner to set the unextendable due date, had been terminated. The Applicant explained this in the response filed on May 21, 2001, the relevant portion of which is reproduced below:

The Applicant respectfully notifies the Examiner that the related litigations referred to in the Notice or Related Litigation filed on September 7, 2000 have concluded. On September 26, 2000, the International Trade Commission ("ITC") determined that U.S. Patent No. Re. 36,648 was invalid under 37 C.F.R. § 1.175(b)(1) for lack of a supplemental reissue declaration directed to overclaiming and inventorship. As a result of the determination of invalidity of the '648 patent by Administrative Law judge Luckern at the ITC, the two litigations were terminated. A reissue application was filed for

the '648 patent on November 16, 2000. That reissue application bears Serial No. 09/027,852.

In view of the termination of the litigations, the Applicant respectfully requests that this application be treated as a reissue application not involving litigation and that the file be marked to that effect.

This amendment is being filed in response to the Office Action mailed on March 21, 2001. That Office Action set a shortened response date that was not extendable under 37 C.F.R. § 1.136(a) due to the related litigations identified by the Applicant. In view of the fact that the litigations have been terminated and that this application is no longer eligible for special, accelerated status, it is respectfully requested either that a one month extension of time be accepted under 37 C.F.R. § 1.136(a) or that the normal three-month response period afforded reissue applications not involving litigation be applied to this application.

It is believed that this response is being timely filed. However, should the Examiner hold the Applicant to the original time period, the Applicant respectfully requests a one month extension of time under the provisions of 37 C.F.R. § 1.136(b).

5. A copy of the docket for the Applicant's law firm (from April 14th to April 30th, 2001) is appended hereto as **Exhibit 2**. The undersigned has reviewed the docket and found no reference to any response being docketed for the Office Action dated March 21, 2001.

For these reasons, the Applicant's attorney believes that the Office should not have held that this application is abandoned. However, as the Examiner has already reviewed the response filed on May 21, 2001, and has determined that the Applicant's response was not timely filed, to expedite prosecution of this application, the Applicant respectfully requests that this application be revived.

Finally, since the Applicant believes that the response filed on May 21, 2001 was timely as explained above (and in the response filed on May 21, 2001, the Applicant reserves

the right to petition for review of the Office's decision to issue a Notice of Abandonment for this application, should this petition be denied.

If there are any fees required for the submission of this Petition that are not otherwise accounted for, please charge our Deposit Account No. 03-3975 and refer to Invoice No. 071419/0272813.

Respectfully submitted,

PILLSBURY WINTHROP LLP

Attachment for PTO-948 (Rev. 03/01, or earlier)
6/18/01

The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

1. Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

Timing of Corrections

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
